## Stocks Slow, Strong.

Testerday's New Tork stock market was slow from start to finish but rather strong and especially firm in spots. The best strength of the day in the leaders was shown in American-Camadian preferred, which advanced to M. as compared with 94 the cleaning on Salvirday. The common shares were 13-4 higher. The rise in the preferred was on the report that with the peat dividend there would be a payment in full of hark dividends on the preferred.

In the other industrials Steel common fed in point of activity and strength. The story in that the hus-ness of the corporation is picking un and that it is now operaling to the 25 per cent capacity; that orders have been well succeeded and the corporation is ready to book new business at higher prices and that the railmant because of canier money would be more libral in ready to book new business at higher prices and that the railmant because of canier money would be more libral in ready to book new business at higher prices and that the railmant because of canier money would be more libral in ready to book new business at higher prices. The public is doing little or nothing, specialities in dead, and there is nothing doing to revive it at this time. It will be October 1 before the fall season is fairly underway on 'chinge.

Prices are holding their own much bester than one might expect, there is no pressure to sell, and this accounts for the nominal strength. Weakington Jan sold at \$1-h. a slight improvement.

Potennac Consenidated in 20-4. Tractor as, 10-1.

Potemar Consellidated in 1974, armo-tion is, 1981-2.

These were the only important trans-actions. A little Traction at 152-4 and failway preferred at \$11-2 completed the

E. &C. Handelph to W. R. Hibbs & Co-On a moderate volume of netwrity this morning the market opened husber, but has remained dull since. The understone has been good and the openuting advances have been well maintained, in spite of the weakness of New Havet, which declined to a new low record the high Valley was an especially strong feature, making a new high record on this movement, while the excellent report published by the American Levoneutre Company was reflected in a further advance in the stock, the first sale being made at 12th company with many continued with with a staturday's close. During the later trading the market shaded somewhat from its best prices, but in spite of the dullness remains decidedly firm. Steel burying continues to show a large increase over that of a month ago. Compared with the low level of three months ago, the Steel Corporation shows a gain of between 8 and 5 per cent in bookings and the independents report a similar increase. Buying of wire products shows an increase of 5 per cent rompared with a month ago. The heavier denged on the part of consumers is due largely to lower prices and manufacturers report that there is now considerably less under cutting.

H. K. Evans-The most eignifican feature about developments last week was the marked increase in each in money, both here and atread and this has encouraged sentimen on both sides of the water. There fore the market abows a strong tendebry in face of crop damage reports and a very uncertain Mexican situation. There is very little present of stock and momentarily, barring accidents, the market losis as if it would go higher.

## ADDITIONS PLANNED

More Room Needed at Hospital for Insane to Take Care of Increasing Number of Inmates.

Number of Inmates.

Extensive improvements are being made at the Government Hospital for the Insane in order to take care of the ever-increasing number of immates at that institution. Many new buildings are being constructed on the east side of Nichols Avenue, the tract acquired a few years ago. So crowded is the original ground that there is no room for additional buildings.

A wall is being constructed around Promate Hall, where the criminally insane are confined. This is taken as a prognation to prevent secapes. Five cottages for the housing of patients suffering with tuberculosis have just been completed. Three will be used by men and gree by women. A barn for cows and a shelter for pigs him also been constructed.

atructed.
All the space in the buildings at the present time is occupied, and it is stated that more space could be used for employes, were it available. There are more than 3,000 patients confined in the institution and there is a dire need for more buildings.

Easby-Smith questioned Mulhail cinety
on the contributions he claimed to have
received for McDermott from a number
of Chicago people, whose names do not
appear on the gwern returns made by
McDermott to the elevit of the House of
Espresentatives. Mulhail stood firm on
his former testimony, and would not be
shaken, going into a good deal of debtail
at times and saying "My mind that

Mulhall's invitation to "come outside
the committee room" was extended when
Easby-Smith, in a matter-of-fact tone,
saked:

"Mr. Mulhall, have you any code of

Mulhall, have you any code of morals at all."

Multiall testified that he was drawing a salary of ... week from the New York newspaper which first published his

York newspaper which first potdlished his charges. The first tratimony in behalf of McDermott was heard by the committee when Arthur West of Dayton, this towners as a containing the was secretary to McDermott from Decomber, 1987, to America, 1980, and that during this period he had never seen Col.
